Claims

- 1. Lactic acid bacterium strain belonging to the genus Lactobacillus having the capability of preventing colonization of the intestine with pathogenic bacteria causing diarrhoea.
- 2. The Lactobacillus strain according to claim 1, which is capable of adhering to the intestinal mucosa of a host organism.
- 3. The Lactobacillus strain according to any of the preceding claims, which is capable to grow in the presence of up to 0.4 % bile salts.
- 4. The Lactobacillus strain according to any of the preceding claims, which is selected from the group consisting of Lactobacillus rhamnosus or Lactobacillus paracasei.
- 5. The Lactobacillus strain according to claim 4, which is Lactobacillus paracasei.
- 6. The Lactobacillus paracasei according to claim 5, which is Lactobacillus paracasei CNCM I-2116 (NCC 2461).
- 7. Use of a Lactobacillus strain according to any of the preceding claims for the preparation of an ingestable support material.
- 8. The use according to claim 7, wherein the Lactobacillus strain is contained in the support material in an amount from about 10^5 cfu/g to about 10^{12} cfu/g support material.

- 9. Use of a supernatant of a culture of a Lactobacillus strain according to any of the claims 1 to 6 for the preparation of an ingestible support.
- 10. The use according to any of the claims 7 or 9, wherein the support material is a food composition selected from milk, yogurt, curd, cheese, fermented milks, milk based fermented products, ice-creams, fermented cereal based products, milk based powders, infant formulae.
- 11. The use according to any of the claims 7 to 10, wherein the support material is used for the treatment and/or prophylaxis of disorders associated with diarrhoea.
- 12. Food or pharmaceutical composition containing at least one Lactobacillus strain according to any of the claims 1 to 6 or a supernatant of a culture thereof.
- 13. The composition according to claim 12, which is selected from milk, yogurt, curd, cheese, fermented milks, milk based fermented products, ice-creams, fermented cereal based products, milk based powders, infant formulae, tablets, liquid bacterial suspensions, dried oral supplement, wet oral supplement, dry tube feeding or wet tubefeeding.
